

BICS THIS WEEK

CLASSROOM SPOTLIGHT

Our Grade 3/4 learners developed their creative writing skills after watching a 45-second clip from the short film Soar. Using their imagination, they created their own unique endings to the story.

Students then shared their work during an Author's Chair, reading their stories aloud to the classroom community. We loved seeing their creativity, confidence, and willingness to take risks as writers while celebrating each other's ideas.

Our Grade 1/2 learners proudly showcased their knowledge, explaining the different physiographical regions of Canada and what makes each one unique. It was wonderful to see their confidence and excitement as they shared their thinking and discoveries. We are so proud of the curiosity and hard work they demonstrated throughout this learning experience!
