Parent & Guardian's Guide to Personal Digital Devices

Personal Digital Devices (PDD) are any personal electronic device that can be used to communicate or access the internet, such as cell phones, smart watches, tablets, smartwatches and any other portable electronic device.

Laptops are the preferred device for school use.

While digital devices can enhance learning in many ways, allowing students to collaborate, create and communicate, it is important that they are used in a mindful and meaningful way.

Personal digital devices should only be used with the permission of a teacher or administrator. Additional considerations will be made to provide for student's health and accessibility needs, and accommodation requirements.

Elementary
Cell phones should NOT be used in elementary schools.

Secondary
Cell phones should only be used in class if specifically required for a learning task.

What can parents and guardians do to help?

- Understand the digital device expectations at your child's school
- Support and encourage your child's appropriate use of digital devices
- Refrain from contacting your child during the school day. If it's an emergency, contact the school office.
- Personally model and encourage digital device limitations (boundaries?)

WEST VANCOUVER SCHOOLS

PERSONAL DIGITAL DEVICES

As we start a new school year, we want to remind everyone of the WVS Personal Digital Device (PDD) expectations. These expectations apply throughout the entire school day, including before school, after school, and during break times. Cell phones will not be used at all during school hours. These guidelines are key to creating focused and engaging learning environments. Our goal is to minimize distractions and maximize learning opportunities. Digital devices, when used appropriately, are powerful tools for collaboration, creativity, and communication.
