

Science Made Fun at Cedardale

Dear Grade 6/7 Families,

Division 1, 2 and 3 will be participating in an exciting Science Made Fun in-class program on Thursday, November 6th! Science Made Fun BC programs provide hands-on activities that directly address scientific topics in our curriculum. We will be participating in the Space the Final Frontier science workshop exploring electricity.

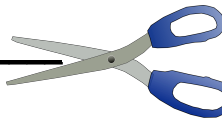

Program description: *Attention all astronomers: blast off into outer space to explore different celestial objects. Journey back in time to the Big Bang and look for yourself if there is life on Mars. Explore some of the constellations in the night sky; this workshop is out of this world!*

The cost of this hands-on learning experience is \$10.00 and is payable by School Cash Online. Please return the bottom portion of this form by Friday, November 1st, 2024.

We look forward to this fun and exciting learning opportunity!

Sincerely,

Mme Brigitte, Mme Leroux, Mme Monica

Accidents can be the result of the nature of the activity and can occur with or without fault on either the part of the student, or the school board or its employees or agents, or the facility where the activity is taking place. By allowing your child to participate in this activity, you are accepting the risk of an accident occurring, and agree that this activity is suitable for your child.

I give _____ in Division ____ permission to participate in the Space the Final Frontier Workshop at École Cedardale on Thursday, November 6th, 2024. I understand that my child may be exposed to certain risks while participating in this activity. Accidents and injuries may occur.

I have paid \$10.00 via School Cash Online
