GLOBAL SCHOOL CLIMATE STRIKES

Many of you may have heard of some of the upcoming climate change protests occurring in Vancouver this Friday. We would like to clarify that Friday is a regular day of instruction in West Vancouver. As per regular school procedures parents may excuse their child from school for any reason they deem appropriate, including attending these events. If this is the case for Friday, students will not be penalized and this will be recorded as an excused absence. We encourage students who will be away to speak with their teachers in advance.

West Vancouver Schools is committed to sustainability practices throughout all of our schools and this has been most recently highlighted in our 2019-2022 Strategic Plan.

We know that many of our classes are taking advantage of all of the news this week on this topic, to bring the issue into the classroom. We also encourage parents to discuss this topic and this global movement with your children.
