West Vancouver Schools Parent & Guardian's Guide to Personal Digital Devices

Personal Digital Devices include any personal electronic device that can be used to communicate or to access the internet, such as cell phones, phones, laptops, tablets, smartwatches and any other portable technology device.

Laptops are the preferred device for school use.

While digital devices can enhance learning in many ways, allowing students to collaborate, create and communicate, it is important that they are used in a mindful and meaningful way.

Personal digital devices should only be used with the permission of a teacher or administrator. Additional considerations will be made to provide for student's health and accessibility needs, and accommodation requirements.

Elementary

Cell phones should NOT be used in elementary school.

Secondary

Cell phones should only be used in class if specifically required for a learning task.

What can parents and guardians do to help?

- Understand the digital device expectations at your child's school
- Support and encourage your child's appropriate use of digital devices
- Refrain from contacting your child during the school day. If it's an emergency, contact the school office
- Personally model and encourage digital device limitations (boundaries?)

This document guides our school community in the use of cell phones, laptops and other Personal Digital Devices during instructional (class) time.

Parents as Education & Career Coaches

EducationPlannerBC invites parents, families, and student supporters to join our virtual presentation on Tuesday, January 7, 2025.
