Ms. Brady's Rockridge AP Bio students travelled to UBC Monday where they participated in hands-on lab experiments, experienced campus life and learned more about being a university student.

History Bowl Competition

Six teams of students from grades 9 to 12 competed for Rockridge's first annual History Bowl competition! Groups were pitted against each other in a buzzer style game to test their knowledge of historical trivia.
The winning team was also the youngest team, comprised of Sara N, Rio R, and Caroline Y!

On Thursday, October 29, 57 students participated in the Canadian Open Mathematics Challenge (COMC) in the library. Students from across grade levels came together to challenge themselves with complex mathematical problems and put their problem-solving skills to the test. It was a great opportunity for students to explore their interest in mathematics, think critically, and push their mathematical abilities beyond the classroom. Congratulations to all participants for taking on the challenge and many thanks to the Math Department for supporting this opportunity!
