

Rockridge grade 11 STEM students conduct experiments with the help of the West Vancouver Fire Department. Students had to build a device that protected their egg while falling from the 100 foot ladder while using as little material as possible and falling as quickly as possible.

Last weekend the Senior girls volleyball team played in the "Best of the West" tournament in Kelowna. The students played very well and tied for first in their pool. They went on to win their matches, and landed in the finals where they played very well, losing a close 3 set match to Kelowna Secondary School.
It was a great team building weekend along with outstanding volleyball by the entire team!

Congratulations Ciel! We look forward to following your athletic progress throughout your post secondary career.
