VCH PUBLIC HEALTH IMMUNIZATION CLINICS ARE OPEN

Dear Parents and Guardians,

Vancouver Coastal Health has continued to offer immunization clinics to children on a one on one basis to ensure all children have protection against communicable diseases during the COVID-19 pandemic. Public Health immunization clinics at Central Community Health Center, Parkgate Community Health Center and West Vancouver Community Health Center are open for immunization.

Keeping you safe continues to be our top priority and we have taken a number of measures to ensure your family is safe in our immunization clinics. We have recently expanded the number of clinics, which will be scheduled throughout the summer.

We encourage any student, particularly the Grade 6 students who had their school-based immunization clinic cancelled due to school closures, to book an appointment.

To book an appointment:

- **Students currently enrolled in Grade 6 and need to catch-up with their immunization, please go to:**
<https://nspublichealth.janeapp.com>
- All other ages please call **604-983-6863**.

If you have any question or would like to speak to a Public Health Nurse or have any questions, please call 604-984-6714.
