WEST BAY INTENTIONS FOR 26-27

CURRENT KINDERGARTEN TO GRADE 6 STUDENTS ONLY

It might seem early to be asking parents whether they expect to have their children at West Bay next September, however, we have already begun to project our enrolment for the 2026-27 school year.

These predictions determine whether we will have room for new learners who are anxious to join our community and informs our class configurations. While we hope to see your family back at West Bay in September 2026, we understand that job transfers happen, plans change, and relocations can occur without much notice.

We are therefore asking that you please indicate on this online form, to the best of your knowledge, whether your child will be continuing at West Bay in September 2026.

[CLICK HERE TO COMPLETE FORM](#)

**Please complete this online form by Friday, January 23rd
2026.**

OUT OF CATCHMENT REGISTRATION OPEN

Click [HERE](#) to register.

[REQUIRED DOCUMENTS](#)

If you have students in your family or network who are looking to join our district, please help spread the word about this important date.

West Vancouver Schools offers a wonderful opportunity to be part of a community that values excellence in education. Our schools take pride in creating meaningful learning experiences and providing opportunities that support the growth, well-being, and success of every student.

To learn more about registration expectations and processes, please visit our admissions page [HERE](#)

We look forward to welcoming new students and families to our vibrant and supportive school community!

HOW WE ORGANIZE OURSELVES RYAN HRELJAC OF RYAN'S WELL

(Taking Action and Effecting Positive Change in the World)

Grade 5 students participated in a virtual presentation with Ryan Hreljac - a Canadian activist - on Tuesday in connection with the central idea of their new Unit of Inquiry - **When We Think Beyond Ourselves - Opportunities to Take Action Grow.**

Ryan's Well grew from the passion and courage of one 6-year-old boy, Ryan Hreljac. Ryan was inspired to take action as a grade one student when he learned of the devastating consequences for people without access to safe drinking water. He was remarkably determined as he succeeded in rallying his community to help him raise the funds needed to build one well in Uganda, Africa – one well that has changed everything.

Well

TERM 1 STUDENT REFLECTION SUPPORTING LEARNING (Developing Critical Thinking Skills)

INTERMEDIATE STUDENT REFLECTION (Grade 5)

Core Competency Reflection

I am reflecting on : Communication.

"Something I feel proud of in this area is how I listen to others and share my ideas in group projects. One way I think I could improve in this area is by asking more questions when I don't understand."

ATL Skill Area Reflection

I am reflecting on : Self-Management Skills.

"Something I feel confident about is organizing my time to complete my assignments. A goal I have to grow in this area is to stay more focused during independent work time".

My Next Steps

- "I will practice asking questions during class discussions to strengthen my **Communication skills**."
- I will use a checklist to stay on track during independent work time to improve my **Self-Management skills**."

PRIMARY STUDENT REFLECTION (Grade 3)

- "Proud of my thinking skills – I used them during our Unit of Inquiry when planning our ecosystem diorama."
- I developed my communication skills when I shared my Tradition sharing when I was special helper."
- I learn best by being by myself and using headphones and table divider."
- My goal for Term 2 is to get better at Math."

LET'S PLAY WHEELCHAIR BASKETBALL - CLICK [HERE](#)

Students were introduced to Wheelchair Basketball by Richard Peters earlier this week. One of Canada's most accomplished wheelchair basketball players for almost 20 years, Peters was a key member of the country's dominant squad that won three Paralympic gold medals between 2000 and 2012.

Using the **Let's Play sports wheelchairs**, students learned how to improve physical literacy by supporting the development of core strength, balance, coordination, and flexibility, while being taught about wheeling, pivoting, passing, dribbling, and shooting. They also worked on game awareness, quick reactions, and teamwork — all through play. A truly inclusive sport - anyone, with or without a disability, can participate. Introducing students to this new sport challenges them in fresh ways and opens the door to meaningful conversations about focusing on people's abilities rather than their disabilities.

Alongside physical skills, we also had important conversations about empathy, perseverance, and how athletes adapt to different abilities and challenges.

Students were highly engaged and showed great curiosity, respect, and enthusiasm throughout the lessons. It has been wonderful to see them step outside their comfort zones, try something new, and reflect on the importance of inclusive opportunities in sport and physical activity. **Thank you to PAC for supporting this great learning opportunity for students.**

DISTRICT DIGITAL EXPECTATIONS

As we begin the new year, we are asking all students and families to recommit to reducing mobile phone use and to the school district's Personal Digital Device expectations. Consistent routines after the break help students re-engage quickly, keep instruction on track, and reduce distractions in shared spaces.

Expectations at a glance:

Elementary (K-7): Mobile phones are not used during the school day, including before and after school and at recess and lunch times. Laptops may be used to support learning during instructional time, only with explicit staff permission.

Family actions that make a difference:

- ☐ Minimize adult mobile phone use in and around school
- ☐ Refrain from sending your child texts or calls during the school day; contact the office for urgent needs only.
- ☐ Review the school district's guidelines for personal digital device expectations, particularly if they received a smart phone or watch over the holidays
- ☐ Help your child understand that when schoolwork requires technology that they need to choose a laptop over a phone as it helps to reduce distractions and support learning

Thank you for working with us to uphold these important expectations.

REGISTER HERE FOR SARAH WARD

Wednesday 28th January @ 6:30 PM

DPAC *parent evening with* Sarah Ward on Executive Functioning

Wednesday, January 28th
\$20 per ticket

Sarah Ward is an internationally recognized expert in executive function. Her practical, research-informed strategies are widely regarded as groundbreaking in supporting student learning and independence.

Drawing from executive function coaching approaches used with elementary, secondary, post-secondary students and adults, this session will help build academic success by exploring time management, task prioritization, long-term project planning and the development of independent learning habits.

REGISTER HERE

KAY MEEK THEATRE
1700 MATHERS AVE
WEST VANCOUVER

6:30 -
8:30 PM

What Parents will Gain From This Evening

Understand

Parents will gain a clear, reassuring understanding of how executive function skills develop over time, why children may struggle with organization and time management, and what is developmentally typical at different ages.

Learn

Parents will learn practical, easy-to-use strategies they can apply at home to strengthen their child's time awareness, organization, study routines and follow-through for academic success.

DPAC

West Vancouver Schools

Parent & Guardian's Guide to Personal Digital Devices

While digital devices can enhance learning in many ways, allowing students to collaborate, create and communicate, it is important that they are used in a mindful and meaningful way.

Personal digital devices should only be used with the permission of a teacher or administrator. Additional considerations will be made to provide for student's health and accessibility needs, and accommodation requirements.

Elementary

Cell phones should NOT be used in elementary school.

Secondary

Cell phones should only be used in class if specifically required for a learning task

What can parents and guardians do to help?

- Understand the digital device expectations at your child's school
- Support and encourage your child's appropriate use of digital devices
- Refrain from contacting your child during the school day. If it's an emergency, contact the school office
- Personally model and encourage digital device boundaries

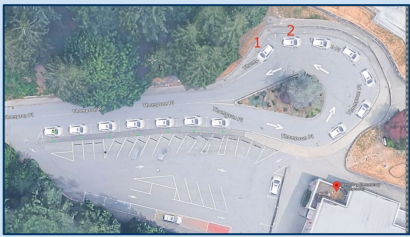

A PROBLEM WITH SOLUTIONS

It takes way too long for parents to pick up their children after school. Fortunately, this problem is solvable. The most helpful arel:

- 1.Please pull up as far as you can to pick up you child so cars behind you can do the same.
- 2. If you absolutely have to get out of your car, please wait until you are in the furthest spot forward so you are not in the way.
- 3. Please remind your child (we'll do the same) to be ready for you: they are looking for your car and have their backpack ready.

DROP-OFF AND PICK-UP

Please ensure you pull as far forward as possible to avoid a backlog behind you. If you need to get out to look for your child, wait until you are in spots 1 or 2.

PARKING DOS AND DON'TS

Click [HERE](#) for more information.

ONLY Kindergarten families are permitted to park in the upper field lot at the beginning and end of the school day. Please display your K decal.

VOLUNTARY ABSENCES FROM SCHOOL

Please understand that if you are choosing to take extended holidays when classes are in session, teachers cannot replicate the learning that happens within the classroom and are not able to provide online learning opportunities.

Our teachers do their very best to support students during required absences due to illness, however, when the absence is voluntary and a family's choice (such as extending a weekend, holiday, or vacation), it is a family's responsibility to maintain academic learning at home.

Please take time to read with your child, have them write in a "holiday" journal, do Math IXL online, participate in any assignments shared via Google Classroom (intermediate students), and take advantage of other emergent opportunities to practise foundational skills (e.g. following instructions and using math while cooking).

Families may email their child's teacher(s) to see if there is other work their child can do, however, our teachers' energy and focus continues to be on the learning of students within the classroom

Personal Digital Device Use

We ask families to support a learning-focused approach to technology at school by refraining from using your mobile phone when on the school grounds. When children see others on phones, they are drawn to theirs too. Further information on our School District's policy regarding personal digital device use can be found [here](#) and parent resource infographics on social media use are [here](#).

Personal Digital Device Use

7:50 AM – 8:50 AM Student Arrival	Students can send text messages and make phone calls on their mobile phone. Students cannot play video games, use social media, take or view photos or videos, listen to music, etc. No laptop or tablet use.
8:50 AM – 2:50 PM + School Events	Students are only allowed to use their device when given permission by a staff member and are supervised by a staff member. Devices are to be stored in silent mode or off.
2:50-3:50 PM Student Departure	Students can send text messages and make phone calls on their mobile phone. Students cannot play video games, use social media, take or view photos or videos, listen to music, etc. No laptop or tablet use.
