## **AP 408 - Long Service Recognition**

The Board recognizes the significant contribution made to the West Vancouver Board of Education by those employees who have served the Board over a long period of time.

In appreciation of their long career in our district, the Superintendent will hold a ceremony each year to honour those employees who have reached their twentieth (20th) year of service with the Board.

When a long service employee retires from the Board, an employee with twenty years or more of service will be provided with an amount equal to forty dollars (\$40) per year of service.
