

# West Vancouver Schools HVAC updates

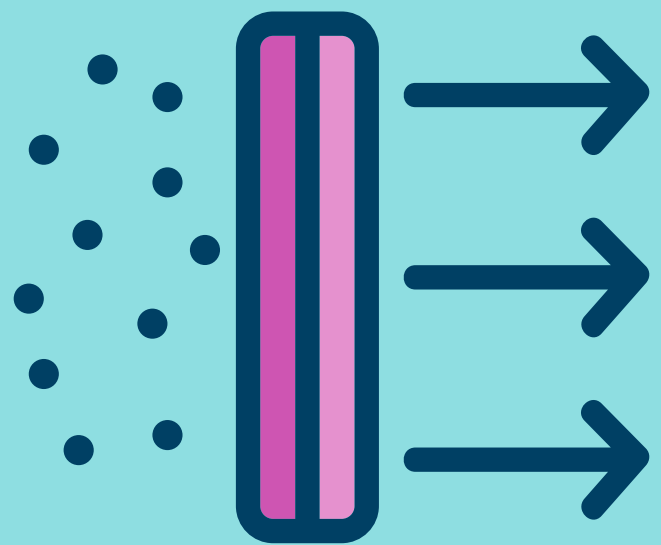

## Upgraded filters

All filters have been replaced with MERV-13's - the recommended filtration rating to use for COVID-19

## Increased Airflow

Air circulation units are optimized to provide 100% fresh air with minimal to no circulation of air

## Supplemental filters

Where needed, portable air exchangers with HEPA filtration have been provided

## HVAC hours extended

Operating settings have been adjusted to start two hours before schools open and to switch off one hour after closing
